JIM PORTER, WOODSMAN, IS FOUND DEAD IN WOODS

Man Whose Body Was Found Yesterday Near Toivola Was Formerly a Resident of Hancock and Dollar Bay—Never Saw a Christmas Tree Until Last Winter, Though Over Sixty.

Jim Porter, a woodsman well known in Hancock, was found dead in the woods near Toivola yesterday afternoon. He was about sixty years old or thereabouts and was an occasional visitor to this city during holiday seasons. He had lived in this country for a considerable number of years and was employed as a logger for the Stinger Lumber company and also for a time as a driver for the Moore sawmills at Dollar Bay.

Word was telephoned to Houghton yesterday afternoon that the body of a man had been found in the woods near Toivola, and Coroner Casper Brand and Under Sheriff Phil Sheridan left late in the afternoon to investigate. It was at first thought that the man had been shot but it was soon found he had died of exposure, after having been running about in the woods for three or four days. No inquest was considered necessary in view of the circumstances.

Porter is the man who, though over sixty years old, had never seen a decorated Christmas tree in his life until last winter, when he spent the holidays in this city. He was in a local saloon last Christmas eve and heard some reference to a Christmas tree and this elicited the remark from him that he would like to see what one of them looked like. A local resident living on Water street only a couple of blocks from the saloon invited Jim to come with him to see the one that was prepared for his child. When Porter was ushered into the parlor and saw the evergreen tree decorated with tinsel and candles with its numerous decorations and presents suspended from the boughs, he was overcome with surprise and emotion. He stood gazing at it in speechless wonder for several moments and then burst into tears. He said that he would remember it as long as he lived and insisted on being allowed to contribute some gifts to be placed on the tree for the children. He was a hearty, rugged individual and a favorite with his comrades. He is said to have a sister living in Saginaw.

ESCANABA JUST SMILES.

Declares Menominee Has No Reason to Ask Houghton for Game.

The Escanaba Press says: Menominee's athletic authorities are puffed again. Unable, apparently, to break away from the time-honored whimpering that has marred athletics at the Menominee high school for years, the officials are now attempting to induce Houghton, champions of the upper peninsula gridiron, to give them another chance at the pennant.

Menominee was fairly defeated by Houghton two weeks ago. The play by which Menominee defeated Escanaba and put the local team out of the running, earlier in the season was a fluke.

Because Menominee won on a fluke this did not cause the local players to demand a return game with the victors on aggregation, but now that the shoe is on the other foot poor, faultfinding Menominee demands that they shall be allowed to play for the peninsula honors with Houghton.

It is to smile. Indeed it might be to laugh.

NEW TELEPHONE LINES.

Manager Lee of the Michigan State Telephone company yesterday received 15 tons of copper wire, two cars of poles and 300 insulators which will be used in constructing five trunk lines between Houghton and Calumet and two between Houghton and Lake Linden. The work will be begun about the first of the month and it is hoped it will be completed and the lines in service by the first of the year.

Col. J. N. Cox, assistant adjutant general of the Michigan National Guard, arrived in Houghton yesterday. When seen Col. Cox stated that national guard matters were very quiet.

YOUR KIDNEYS WILL ACT FINE AND ALL BLADDER DISTRESS SIMPLY VANISHES

Just a Few Doses Regulate Out-of-Order Kidneys Ending the Most Severe Backache—Even the Slightest Kidney or Urinary Derangement Should Not Be Neglected as No Other Diseases are so Treacherous or Fatal Eventually.

If you take several doses of Pape's Diuretic, all backache and distress from out-of-order kidneys or bladder trouble will vanish and you will feel fine.

Lame back, painful stitches, rheumatism, nervous headache, dizziness, irritability, sleeplessness, inflamed or swollen eyelids, worn-out, sick feeling and other symptoms of sluggish, inactive kidneys disappear.

Uncontrollable, smarting, frequent urination (especially at night) and all bladder misery ends.

Feeling miserable and worried is needless, because this unusual preparation goes at once to the disordered kidneys, bladder and urinary system

NOW BELIEVED THE HOYT WILL SOON BE SAVED

The wrecking tug Favorite of Port Huron was yesterday ordered to the scene of the stranded steamer James H. Hoyt near Outer Island, Lake Superior, says the Duluth Herald. The big wrecking tug is no doubt on the job today.

It is now thought that the steamer can be saved, as she weathered the storm yesterday.

The crew is in no danger and they will probably remain on the boat until she is either towed to port for repairs, or abandoned.

There are a number of tugs and one barge in the vicinity of the wrecked boat. Should trouble arise, the men could be taken off the stranded boat in a very short time.

Yesterday the company's offices in the Wolyn building were besieged with long-distance telephone calls and messages asking as to the safety of the crew.

At the offices of the company it is stated emphatically that the crew is in no danger whatever, and that the boat will not be saved.

LAST CORBETT LECTURE.

Fred W. Corbett of Lansing will deliver the last of a series of special lectures in the copper country on temperance at the Paine Memorial library at 7:30 o'clock Saturday evening. The lecture will be one of the best that has been given in the entire series and it is expected that the attendance will be large. Mr. Corbett will occupy the pulpit at the Baltic M. E. church Sunday morning and the Atlantic M. E. church Sunday evening. He will then leave for his home to spend Thanksgiving.

FISH LAW CASE.

Calumet Man Charged With Using Unlicensed Fishing Boat.

The hearing of the case of S. B. Sorenson of Calumet, charged with having maintained an unlicensed game boat for commercial fishing will come up next Monday morning at half past 10 o'clock before Justice Brand. Sorenson was arrested a couple of days ago and was arraigned before Justice Brand at which time he pleaded not guilty and asked for a trial, which will take place Monday morning.

The defense maintained that the license fee required in the village of Laurium had not been paid on the dog and that therefore the owner was guilty of contributory negligence in allowing a dog on the tracks while maintaining it contrary to law. Also that the motorman was justified in not looking out for the dog on account of the general knowledge of the quickness and agility of such animals, and their ability to detect danger and get out of the way.

HOUGHTON HOCKEY DELEGATES

The annual meeting of the Copper Country Amateur Hockey league will be held tonight in the Hotel Scott, Hancock, and it will be attended by four Houghton delegates, W. E. Fick, vice president of the league, John T. McNamara as manager of the Amphidrome and Manager John Cross and Carlos Haug as delegates from the club.

OVER TEN INCHES SNOW.

The depth of snow that fell in Houghton in twenty-four hours up to 7 o'clock on Tuesday evening, according to measurements taken in the field of the Vivian property on Sheldon street by the weather bureau, was ten and a half inches, which is considered a pretty heavy downfall. The storm was very severe and almost continuous for three days on the lake, the wind on Tuesday blowing at the rate of fifty miles an hour on Lake Superior, according to the measurements taken by the instruments at the canal. At the time of the wreck of the Ottawa on Monday the wind blew sixty miles an hour.

GRAND LARCENY CHARGE.

Deputy Pat Elliott of Kenton arrived in Houghton today with Martin Matthes, who has been charged with grand larceny. It is alleged that Matthes appropriated \$30 belonging to a friend. He will be arraigned before a local justice today.

HOTON BREVETED.

The steamer Manitowish was in port yesterday with merchandise freight consigned to local docks. The Manitowish is a new one in local waters, belonging to the Crosby line and being chartered by the Chicago and Duluth line for the balance of the season. She is a boat resembling somewhat the Pere Marquette No. 5, with passenger staterooms. She carried three passengers consisting of three women who are en route to Rock Island to spend the winter.

The steamer Mary H. Boyce, east bound with lumber, stopped for a while yesterday at the Penitentiary Wholesaler grocery.

Frank Pummerville left yesterday for Cadillac, Wis., called by the announcement of the impending death of his granddaughter, the oldest child of Mr. and Mrs. Ed. Walter, formerly of Houghton. Mrs. Pummerville is already at Cadillac.

At the Hotel Dee at 8 o'clock Tuesday evening Philip Baumgartner of Houghton, was married to Miss Sarah Glassman of Louisville, Ky., by Rev. A. B. Sutcliffe of Grace M. E. church. Mr. and Mrs. Baumgartner will take up their residence in Houghton.

William Milhi, a 12-year-old Central school boy, while sliding on the hill near Trinity church yesterday afternoon lost a black pocketbook or purse containing \$10, the property of his parents. The little fellow is suffering great grief over the matter and if anyone should find the money they should return it to the school office.

HOME, NOT STAGE, HER HEART'S DESIRE.

Reno, Nev., Nov. 18.—It was plain Margaret Hington for four days. The judge took the name of Frohman away from her to allow her to become Mrs. E. J. Boyce. Here is the old, old story of the thwarting of her heart's desire. She wanted a home like other wives. She wanted to get out of the limelight and stay out of it. All these things were denied her and now she has found a millionaire to serve her for all time.

County Clerk Richardson yesterday issued marriage licenses to Alfred Paul and Susie Morrison of Calumet and to George Noel and Helen M. Riley of Houghton.

GIVING AND GETTING.

Our charities are so generally regarded as a proof of a highly philanthropic civilization, that few recognize them as a symptom of a disease. They seem to be the result of the experience of 1,800 years, but they are really the result of our misunderstanding of the teachings of these 1,800 years.

To relieve present misery is the best that charity can do, and to talk of making men holier before securing them against want, is idle pretence. To teach contentment with present unjust conditions because there is hope of better in another world, is a mistake, just as it is a mistake to teach that we are better off than ever, that we are improving, or else that it is the will of God, that we should be in this condition. To create this attitude of mind helps to disguise the worst symptoms of injustice and misery, and also serves to uphold those who have forgotten God as a factor in their dealings.

No change for the better will ever result from this course. The love and sympathy that could redeem conditions are diverted from their office and set to dealing out soup-tickets in place of justice.

The problem will not be solved by raising the standard of living. So long as the amount of work to be done or the amount to be paid for it, is limited, to increase desires and raise the standard of living is but to increase hardships and immorality. With this higher standard and no increase of pay, men will be unable to keep wives as they are used to being kept, so they will keep establishments without keeping wives.—Bolton Hall in Forum Magazine.

FOURTEEN ERRORS OF LIFE.

The fourteen mistakes of life, Judge: 1. To attempt to set up our own standard of right and wrong, and expect everybody to conform to it. 2. To try to measure the enjoyment of others by our own. 3. To expect uniformity of opinion in this world. 4. To look for judgment and experience in youth. 5. To endeavor to mold all dispositions alike. 6. Not to yield to unimportant trifles. 7. To look for perfection in our own actions. 8. To worry ourselves and others about what cannot be remedied. 9. Not to alleviate, if we can, all that needs alleviation. 10. Not to make allowances for the weakness of others. 11. To consider anything impossible that we cannot ourselves perform. 12. To believe only what our finite minds can grasp. 13. To live as if the moment, the time, the day were so important that it would live forever. 14. To estimate people by some outside quality, for it is that within which makes the man.—London Evening Standard.

Four minute Records for the Edison Phonograph

When Mr. Edison invented the Amberol Records he invented the longest Record ever made for a sound-reproducing machine. But the Amberol Record is not only longer; it is better. It is made from a new composition which makes a more perfect reproduction of music or the voice than any known method.

An Amberol Record in an Edison Phonograph is the most perfect reproduction of a song or a piece of instrumental music that you have ever heard.

But do not accept our statement. Go and hear it. There is a dealer near you. Hear the Edison Phonograph and compare it with other instruments before you decide. We will leave it to your judgment as to whether you can buy anything for the price that will give you so much real, genuine fun and pleasure as the Edison Phonograph.

Edison Phonographs - \$12.50 to \$125.00 Edison Amberol Records (twice as long) 39 Edison Standard Records - \$5.00 to \$25.00 Edison Grand Opera Records - \$7.50 There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Amberol Records. Get complete catalogs from your dealer or from us.

Rentoul told the Bartholomew club, stopped one day, and my friend suggested to the father that a bath might cure him. The father told his hands in horror.

"A bath! That would kill him!" he exclaimed. "I never bathed in my life, and my children never bathed and never will."

Down in the low countries they do bathe once a year. At midnight on the 29th of June—St. Peter's and St. Paul's day—the two good saints swim the ocean and make the water harmless, and those within reach of the sea, who have sufficient faith in the protective powers of the saints, gather there on that day and recklessly wash their bodies. At points removed from the coast the 24th of June is the annual bathing day. This is St. John's day, and that good saint has a concession to mollify the rigors of the rivers for the benefit of the would-be clean ones.—Dillon Wallace, in the December Outing.

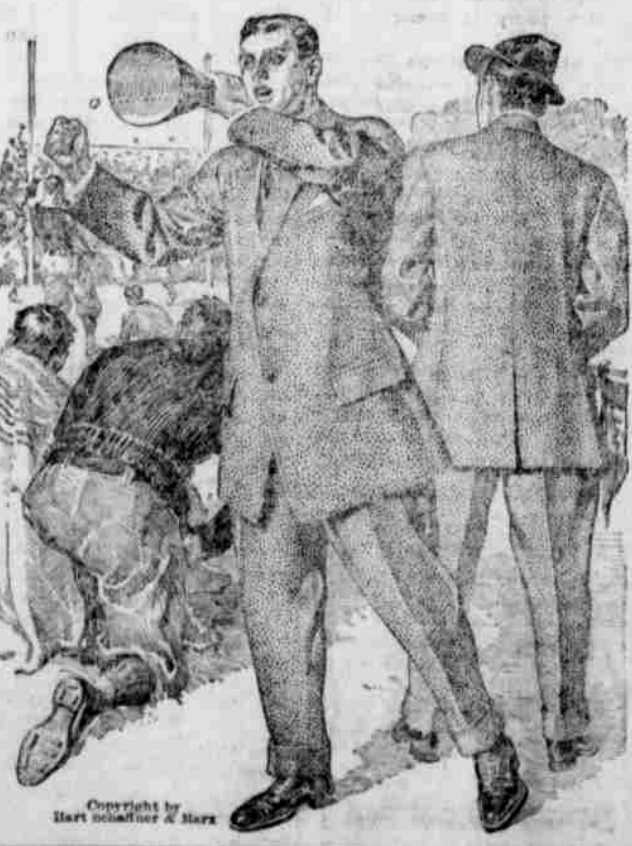

Effect of Electricity. The average person does not experience any sensation from an electrical current until the pressure reaches about 35 volts.

Information. "You may never have heard of it," said Mrs. Lapsling, "but it's a fact that they teach fishing in some of the English colleges. I've often heard Prof. Studymann, who used to live in London, tell of the time when he was a senior angler."

THE BATHLESS NATIVES.

I believe these Mexican Indians never bathe at all. In fact there is a belief among them that to bathe is to court sickness and death. There was a glen in a hut where a friend of mine
